A tailor-made solution for your curved staircase

Ergonomic and innovative design features

COMPACT

Custom built to fit your staircase, this **space-saving** track minimizes space taken up on your stairs.

SAFE

Surrounded by **safety sensors**, Handicare stairlifts are designed to stop if meeting an obstruction – keeping you safe and still on your seat.

INTUITIVE

The toggle control was designed in collaboration with occupational therapists to ensure it is **easy-to-use** and operate – simply push with your hand, arm or wrist in the direction you want to go.

VERSATILE

The **outdoor** stairlift is UV protected and weatherproofed to withstand the elements. Includes a waterproof cover so it is always dry and ready.

REVOLUTIONARY

The **powered hinge** option prevents the track from obstructing a doorway at the base of the stairs.

ADAPTABLE

The **Perch Seat** option is ideal for users with limited hip and knee flexibility. The low profile "perch" style seat means your legs don't have to bend to use it yet you still feel secure.
